SMS (short message service) is a text messaging service component of most telephone, Internet, and mobile device systems. It uses standardized communication protocols that let mobile devices exchange short text messages. An intermediary service can facilitate a text-to-voice conversion to be sent to landlines. SMS, as used on modern devices, originated from radio telegraphy in radio memo...

Times of great crisis and chaos tend to shake people's confidence and make ordinary mortals turn towards astrologers or self-help books for answers and solutions. Corporations go to management gurus and strategy consultants for the same

reason. Quite often, the management guru or consultant does not offer any blindingly new insight.
