Book The Construction Of Social

In *The Construction of Social Reality*, eminent philosopher John Searle examines the structure of social reality (or those portions of the world that are facts only by human agreement, such as money, marriage, property, and government), and contrasts it to a brute reality that is independent of human agreement. Searle shows that brute reality provides the indisputable foundation for all social reality, and that social reality, while very real, is maintained by nothing more than custom and habit.

Abstract. Contemporary theorists use the term “social construction” with the aim of exposing how what's purportedly “natural” is often at least partly social and, more specifically, how this masking of the social is politically significant. The chapters in this book draw on insights from feminist and critical race theory to develop the idea that gender and race are positions within a structure of social relations.

The social construction of health is a major research topic within medical sociology. At first glance, the concept of a social construction of health does not seem to make sense. After all, if disease is a measurable, physiological problem, then there can be no question of socially constructing disease, right? Well, it's not that simple.
