### Lion

The lion (Panthera leo) is a species in the family Felidae and a member of the genus Panthera. It has a muscular, deep-chested body, short, rounded head, round ears, and a hairy tuft at the end of its tail. It is sexually dimorphic; adult male lions have a prominent mane.

### Lion - Wikipedia

Lion, (Panthera leo), large, powerfully built cat (family Felidae) that is second in size only to the tiger. The proverbial "king of beasts," the lion has been one of the best-known wild animals since earliest times.

### lion | Characteristics, Habitat, & Facts | Britannica

No, LION is a personal story unique to South Asians growing up in India, and it's refreshing and easily one of the best films the year has to offer. Don't dismiss this as yet another Oscar bait movie put out by the Weinstein Company - it probably is one. But the film is much more than that.

### Lion (2016) - IMDb

Lions have strong, compact bodies and powerful forelegs, teeth and jaws for pulling down and killing prey. Their coats are yellow-gold, and adult males have shaggy manes that range in color from blond to reddish-brown to black. The length and color of a lion's mane is likely determined by age, genetics and hormones.

### Lion | Smithsonian's National Zoo

Lion is certainly a well-made film, but it was tough to get over the feeling of being poked and prodded by the filmmakers, looking for that one spot on your heart that will flood your eyes. April...

### Lion (2016) - Rotten Tomatoes

What is the African lion? It is the second-largest living big cat after the tiger. Males are unique among the cat species for their thick mane of brown or black hair encircling their head and neck. The mane darkens with age, and the thicker and darker a mane is the healthier the cat.

### Lion | African Wildlife Foundation

Lion is a 2016 biographical drama film directed by Garth Davis (in his feature directorial debut) from a screenplay by Luke Davies based on the 2013 non-fiction book A Long Way Home by Saroo Brierley.

### Lion (2016 film) - Wikipedia

For all of their roaring, growling, and ferociousness, lions are family animals and truly social in their own communities. They usually live in groups of 15 or more animals called prides.

### Lion

Lions are the second-largest cats in the world, after tigers. Known as the "king of beasts" or "king of the jungle," these regal felines once roamed Africa, Asia and Europe, but now only live in...

### Lions: The Uniquely Social 'King of the Jungle' | Live Science

The lion (Panthera leo) is a species in the cat family (Felidae); it is a muscular, deep-chested cat with a short, rounded head, a reduced neck and round ears, and a hairy tuft at the end of its...
