Enjoy sports. Sports organizations for young people may hire a sport psychologist to educate coaches about how to help kids enjoy sports and how to promote healthy self-esteem in participants. Sports psychology can even help people off the playing field. The same strategies that sport psychologists teach athletes—relaxation techniques, mental rehearsals and cognitive restructuring, for example—are also useful in the workplace and other settings.

My first job in sport psychology was to establish a counselling service for the athletes who live in residence at the Australian Institute of Sport (AIS) in Canberra. I now work as a senior psychologist at the AIS. One of the most appealing aspects of working as a sport psychologist is the constant variety in the work. While many aspects of the job are similar to other fields of psychology, the environment in which sport psychologists work provides the variation.
