### Chapter 8 Solutions | CompTIA Security+ Guide To Network ...

a network with an equilibrium pattern of traffic, there is always an equilibrium in the new network whose travel time is no more than 4/3 times as large [18, 353]. Moreover, 4/3 is the factor increase that we'd get in the example from Figures 8.1 and 8.2, if we replace the two travel times of 45 with 40.
