The Metaphysics of Time, Space and Architecture | by Mette ...

Space architecture, in its simplest definition, is the theory and practice of designing and building inhabited environments in outer space.. The architectural approach to spacecraft design addresses the total built environment. It is mainly based on the field of engineering (especially aerospace engineering), but also involves diverse disciplines such as physiology, psychology, and sociology.

Space architecture - Wikipedia

Colleagues Huda Tayob and Suzanne Hall have been at work since autumn 2018 on a transdisciplinary open-access curriculum in Race, Space, and Architecture. Incorporating history, critical race theory, and studies of cities from Beirut to Dakar to Kuala Lumpur to New York, the project also gives prominence to fiction, biography, poetry, and film.

Race, Space, and Architecture

Space stations These refer to spacecrafts where people can stay for a prolonged period of time in space. Whilst about 20 space stations have been launched since the 1970s, currently, there is only ...
