Amazon.com: The Black Death: A Turning Point in History ...

The Black Death was an epidemic which ravaged Europe between 1347 and 1400. It was a disease spread through contact with animals (zoonosis), basically through fleas and other rat parasites (at that time, rats often coexisted with humans, thus allowing the disease to spread so quickly). In 1347, the arrival of the Black Death to Crimea was already chronicled.
