7th Grade Science Ecology Unit Information

Seventh Grade, Environmental Science Science Projects. (23 results) As humans we are part of the environment. With over 7.5 billion of us on Earth, our combined actions also have a big impact on the environment. As long as we are aware of the impact, we can do things as individuals, and working together as groups, to lessen the detrimental impact of billions of people.

7th Grade Ecology Project - Mrs. Duermeyer's Science Site

Ecology is the study of how living things interact with each other and their environment. Earlier this year we learned about the levels of organization within an organism: cell-tissue-organ-organ system-organism. Now we are looking at the levels of organization starting at an individual (i.e., organism) and ending with the biosphere (i.e., earth).
