ACCA Manual D Manual D Duct Designs: Right-D ® is a fast, easy-to-use residential duct sizing and calculation software that takes full advantage of ACCA's and ANSI's standard Manual D Method.

**Right-D®: ACCA Manual D Duct Calculation & Sizing**  
Manual D, from the Air Conditioning Contractors of America (ACCA), provides a single set of ANSI recognized duct sizing principles and calculations that apply to all duct materials.

**Manual D Residential Duct Systems: Hank Rutkowski, Air ...**  
The Manual D is a complete schematic drawing of the duct system including locations and sizes of trunk-lines, branch ducts, outlet registers, an inlet grilles. Getting a complete Manual D HVAC design done on your property plans is the best way to ensure that your heating and cooling system will deliver maximum comfort at high efficiency.

**Manual D - Ductwork Design Service | A/C Duct Design ...**  
Manual-D is ACCA's duct design method for properly sizing the airflow pathways – the ductwork – within a residential heating and cooling system. Even though this method has been around for many years, it is rarely implemented (and even less-often implemented correctly). Example of a duct calculator tool (www.hvaccharts.com).

**Manual-D duct design is rarely used; less-often done ...**  
ACCA Manuals J, S, and D are referenced and required across America. This form provides a quick and easy review the HVAC system design. This review gives an objective indication whether required processes were followed.

**Downloads - Public Files - ACCA**  
ACCA Speed-Sheets are Excel spreadsheets you can use in conjunction with certain ACCA technical manuals to assist in learning these important system design concepts. Speed-Sheets must be used in conjunction with the printed manuals on which each is based, and are not a replacement for full-featured ACCA-approved software.

**Speed-Sheets - ACCA**  
Only ACCA-approved software complies with our design standards and meets building code requirements! If software is not listed on this page, then it is not ACCA-approved, and it does not produce results in compliance with our rigorous standards.. Especially in terms of Manual J® residential load calculation, make sure that you only use ACCA-approved software in order to ensure compliance with ...

**Approved Software - ACCA**  
Achieving occupant satisfaction is the principal goal of any HVAC design. For residential air duct designs ACCA's Manual D is the procedure recognized by the American National Standards Institute (ANSI) and specifically required by residential building codes. Air is the first word in air conditioning.
