Today, 1 in 5 teens will experience some form of hearing loss—a rate about 30% higher than it was 20 years ago. Many experts believe the escalation is due, in part, to increased use of headphones. According to James E. Foy, DO, an osteopathic pediatrician from Vallejo, California, listening through headphones at a high volume for extended ...

Questions about the Gulf of Tonkin incidents have persisted for more than 40 years. But once-classified documents and tapes released in the past several years, combined with previously uncovered facts, make clear that high government officials distorted facts and deceived the American public about events that led to full U.S. involvement in the Vietnam War.
