Annual Report

Avoid psoriasis triggers. Notice what triggers your psoriasis, and take steps to prevent or avoid them. Infections, injuries to your skin, stress, smoking and intense sun exposure can all worsen psoriasis. Avoid drinking alcohol. Alcohol consumption may decrease the effectiveness of some psoriasis treatments. If you have psoriasis, avoid alcohol.

Psoriasis - Diagnosis and treatment - Mayo Clinic

Psoriasis is a chronic immune-mediated, hyperproliferative disease of the skin with several presentations, which are similar across races and ethnicities. Prevalence is generally less in populations with skin of color. Genetic and environmental factors play leading roles in the pathogenesis of psoriasis.
