for the sensor cable. For a new installation, choose a location about 1.5 m above the floor. For electric baseboards, convectors and fan-forced heaters, the thermostat must be installed facing the heating system and on an inside wall. Avoid locations where there are air drafts (top of staircase, air.

Manual - Aube TH232-AF-230 Thermostat

Aube's TH115 programmable thermostats have three temperature control modes: 1Place the switch in Standby to cut power to the heater when not in use (e.g., in the summer). This will not affect the time and temperature settings. 2If your thermostat is installed on a power base equipped with a ground fault protection, to reset the ground fault protection, switch the thermostat to Standby and back to On.
