Month-to-date (MTD) is a period starting at the beginning of the current calendar month and ending at the current date. Month-to-date is used in many contexts, mainly for recording results of an activity in the time between a date (exclusive, since this day may not yet be "complete") and the beginning of the current month.

The huge gap between rising incomes at the top and stagnating pay for the rest of us shows that workers are no longer benefiting from their rising productivity. Before 1979, worker pay and productivity grew in tandem. But since 1979, productivity has grown eight times faster than typical worker pay (hourly compensation of production/nonsupervisory workers).
