style and romance, with even the most mundane detail given a witty lick of polish.

(Daily Telegraph 20110724) Caddy's World excels in

portraying not only the thoughts and feelings of four 12-year-old girls, but also those of the Casson parents.

(The Times 20110724) Unsentimental with soft-centred charm.

The book is well written and enables other children to consider how they would deal with similar issues, issues which are very real in today's world. This is the sixth book in the series about the Casson family.
