2018 INTERNATIONAL BUILDING CODE (IBC) | ICC DIGITAL CODES

Fiber-reinforced concrete (FRC) is concrete containing fibrous material which increases its structural integrity. It contains short discrete fibers that are uniformly distributed and randomly oriented. Fibers include steel fibers, glass fibers, synthetic fibers and natural fibers – each of which lend varying properties to the concrete. In addition, the character of fiber-reinforced concrete ...

Fiber-reinforced concrete - Wikipedia

C-8 Concrete Contractor (CCR 832.08) Can a C-8 Concrete contractor contract and pull permits for a lattice patio cover? No. A C-8 contractor can only work with wood when it is part of a formwork for concrete. C-53 Swimming Pool Contractor (CCR 832.53) Can a C-53 Swimming Pool contractor contract and pull permits for a patio cover? No.
