Reflection papers don't really require a rigid structure—the most important thing is that you communicate your ideas clearly and effectively. (Of course, if you received specific guidelines from your instructor, you should stick to those.) The following is a loose outline that you can use to guide you through your reflection paper:

### How to Write a Reflection Paper in 5 Steps (plus Template ...

Health: is published six times per year and attempts in each number to offer a mix of articles that inform or that provoke debate. The readership of the journal is wide and drawn from different disciplines and from workers both inside and outside the health care professions.

2. SAMPLE SIZE AND SELECTION. Quantitative research usually aims to provide precise, unbiased estimates of parameters of interest for the entire population which requires a large, randomly selected sample. Brett et al 4 reported a positive impact of PPI on recruitment in studies, but the representativeness of the sample is as important in quantitative research as sample size.
