The present is built on the past, and we, the people of the 21st century, owe much of our existence to the ancient civilizations that dotted the globe centuries ago. As interesting it is to document the artefacts and lifestyles of these societies, each layer spurts out interesting facts about the times the ancient people lived in.

## **13 Oldest and Ancient Civilizations of the World | Historyly**

In this dramatically revised and expanded second edition of the work entitled Pan's Travail, J. Donald Hughes examines the environmental history of the classical period and argues that the decline of ancient civilizations resulted in part from their exploitation of the natural world. Focusing on Greece and Rome, as well as areas subject to their influences, Hughes offers a detailed look at the impact of humans and their technologies on the ecology of the Mediterranean basin.
