Basic Principles of Ecopsychology. In “The Voice of the Earth,” Roszak put forth a list of principles for ecopsychology: The ecological unconscious is in the core of our mind and the repression of which is collusive madness and open access to it is the path to sanity. The ecological unconscious consists of the living record of cosmic evolution.

We document the species richness and volatile oil diversity in Sonoran Desert plants found in the Arizona Uplands subdivision of this binational USA/Mexico region. Using floristics, we determined that more than 60 species of 178 native plants in the ancient ironwood-giant cactus forests emit fragrant biogenic volatile organic compounds (BVOCs), especially with the onset of summer monsoons ...
