the PhET online simulator titled Energy Skate Park. Students explore conservation of energy as a skater rides a u-shaped ramp. I give a short demo on how to open the simulator, its features and the settings to use. The internet simulator is by the University of Colorado and is one of many interactive science simulators present at PhET.

excellent example of
the conservation of

Download Free Energy Skate Park Mastering Physics

energy. The law of conservation of energy tells us that we can never create or destroy energy, but we can change its form. In this lab, you will analyze energy transfer between gravitational potential energy, kinetic energy, and energy lost due to collisions or friction (thermal energy) as a skate boarder rides along a track.
