What other factors influence the Greenhouse effect? ANSWER - The surface that the radiation first encounters- different surfaces will reflect/absorb different amounts of solar radiation -amount of cloud cover- areas with greater amounts of cloud cover have lower amounts of solar radiation reaching the surface of the Earth and also lower amounts of radiation going back to space.

## **The Greenhouse Effect Webquest**

The greenhouse effect is a natural phenomenon, but the extra gases produced by human activity are making it stronger. We are now adding to these gases faster than oceans and plants can absorb them — the greenhouse effect is being ‘enhanced’ by humans.
