Guided imagery (also known as guided affective imagery, or katathym-imaginative psychotherapy (KIP)) is a mind-body intervention by which a trained practitioner or teacher helps a participant or patient to evoke and generate mental images that simulate or re-create the sensory perception of sights, sounds, tastes, smells, movements, and images associated with touch, such as texture ...

Guided imagery - Wikipedia

Guided imagery (sometimes called guided meditation, visualization, mental rehearsal, and guided self-hypnosis) is a gentle but powerful technique that focuses the imagination in proactive, positive ways. Guided imagery or guided meditation has the built-in capacity to deliver multiple layers of complex, encoded messages deep inside – positive, healing, motivating messages – through simple ...

The Delors Report proposed an integrated vision of education based on two key paradigms: lifelong learning and the four pillars of learning. The report proposed a holistic conceptual framework of learning, that of the 'four pillars of learning'. It argued that formal education tends to emphasize the acquisition of knowledge to the detriment of other types of learning essential to sustaining ...

Lifelong learning - Wikipedia

What is guided reading? Guided reading is a small-group instructional context in which a teacher supports each reader's development of systems of strategic actions for processing new texts at increasingly challenging levels of difficulty.

What is Guided Reading? - Fountas and Pinnell

Let's teach how to rhyme with these rhyming activities for kindergarten. Here are 8 free rhyming activities you can use with your kindergarten students in guided reading groups so they can learn how to hear and identify rhyming words. Teaching kindergartners to hear rhyming words I once thought that rhyming was just something that kinders knew or didn't know.

Neuroscience tells us that noticing drifting attention, and gently returning our focus to wherever we've placed it, over and over, is how we create new pathways in the brain. At the end of this exploration of bodily sensations, spend a few moments to expand your attention to feeling your entire body breathing freely.
