Hawker 700 Pilot Manual - recrogarage.com

A variant of the original British Aerospace 125, this jet remains popular for its durability and dependability. It first flew on June 19, 1976. The Hawker 700A is powered by two Honeywell TFE731-3RH turbofan engines with 3,720 pounds of thrust each; all early models can be re-engined.

Hawker 700A Specifications, Cabin Dimensions, Performance

Introduced in 1977, the hawker 700 has endured thanks to its durability, spacious stand-up cabin and bargain prices. You can pick one up on the used market for as little as \$1 million. spend a little extra on paint, a new interior, a cockpit makeover and a maintenance service plan, and your airplane will be hard to distinguish from a brand-new Hawker 900XP selling for \$14 million.

Hawker 700 | Business Jet Traveler

750km/h The Hawker 700 private jet is one of the most popular mid-size business jets in service today. Passengers prefer an aircraft of this class because of its cabin size, comfort and range. It is well suited for longer domestic flights, traveling non-stop over 2,000 miles at a normal cruising speed of 470 mph and at altitudes up to 41,000 feet.

Hawker 700 | JetClass Aircraft

These publications are intended to provide an overview of the aircraft systems and operating parameters that are general in nature. The only source for this kind of informaton when it pretains to the safety of flight is the current FAA approved Airpalne Flight Manual.
