Infant Toddler Caregiving A Guide

Goal: High-quality infant and toddler programs implement primary caregiving for each infant and toddler. Implement written guidance to support primary caregiving throughout the program. This includes creating staff and family handbooks that share the importance of, as well as practices for, supporting primary caregiving strategies for infants and toddlers and their families.

Primary Caregiving - Infant Toddler Resource Guide

The Perfect Guide For Responsive Caregiving in Infant and Toddlers. It often brings a smile to parents and the little ones while lowering stress and building little brains. Play has been such an important part of childhood, yet the opportunities to play in today's life are shrinking.

The guidance in Infant/Toddler Caregiving: A Guide to Social-Emotional Growth and Socialization (Second Edition) is not binding on local educational agencies or other entities. Except for the statutes, regulations, and court deci-sions that are referenced herein, this handbook is exemplary, and compliance with it is not mandatory.

A Guide to Social-Emotional Growth and Socialization ...

The infant caregiver may move with the infants into the practicing toddler group, or, if the children are comfortable with the new caregiver, she may move back to receive a new group of infants. This same slow process, focusing on each child's adjustment to a new environment, takes place throughout the age groups, including the movement of older toddlers (young threes) to the preschool program.

How to Care for Infants and Toddlers in Groups • ZERO TO THREE

Touchpoints are times when infants and toddlers are making developmental advances, but the advances are preceded by behavioral regressions. By sharing these predictable developmental patterns with parents, educators can reduce families' stress and improve their caregiving.

Caring For and About Infants and Toddlers | NAEYC

Design spaces where infants and toddlers can freely explore and caregivers can be close by. This allows you to pay more attention to engaging in responsive interactions with children. Also, an environment that is safe for infants and toddlers to move and explore freely supports their developing sense of independence and lessens the need for redirection.

Preparing the Environment - Infant Toddler Resource Guide

The Program for Infant/Toddler Care (PITC) is a relationship-based approach to infant/toddler care that offers a comprehensive menu of training options to support your EHS services.
