I mean its brilliant. What were doing right now is going to school doing a lesson .going home. forgetting the lesson .and having to do homework we don't know.Instead we could be doing the lesson at home on the computer,coming back to school with any questions we have,and than doing "home"work at school with help from the teachers. What are your views on this

What do you think of the Khan Academy? | Yahoo Answers

The Khan language is designed for teaching, not developing independent programs that run outside of KA. It's basically JavaScript, though, with extra functions, so your skills will apply directly to HTML5 web page coding (with some different function calls, but the language syntax and the basic concepts are the same) and generally to coding in most other programming languages.

is khan academy enough? | Yahoo Answers

I've been studying on Khan Academy for 1 year. It's really easy to learn there where there is a narrator teaching you how to solve problems. And they also provide practice, Quiz and unit test. I've already succeeded 5 branches of math on Khan Academy. All of them are 100%.
