### **Martian Outpost The Challenges Of**

Martian Outpost was decent but it took an unexpected direction and was poorly edited. Despite the title, hardly any time was spent talking about a "Martian Outpost". Instead this was a technical exploration of space travel and propulsion systems in general. There was but one chapter on the actual "Martian Outpost".

### **Martian Outpost: The Challenges of Establishing a Human ...**

Seedhouse describes such problems as radiation, extreme temperatures, and construction challenges that will be encountered by colonists. He examines proposed concepts for transporting cargo and astronauts long distances across the Martian surface using magnetic levitation systems, permanent rail systems, and flying vehicles.
