The full title is: Mathematicians Are People, Too: Stories from the Lives of Great Mathematicians. My parents are in that group of retired folk that go into public schools and read stories to children - of course, it helps that mom was a teacher for something like 50 years, so this is old hat for her.

Mathematicians Are People, Too, Volume 1 by Dale Seymour ...

And although math is frequently idealized as floating above the messiness of human life, its story is nothing if not human; often, it is all too human. Loving and Hating Mathematics is about the hidden human, emotional, and social forces that shape mathematics and affect the experiences of students and mathematicians.
