Porous or cellular Al is a light-weight metal with good deformability, hence, it is a strong candidate for crumple zones in automobiles. SLM of Al is also beneficial for hard-to-machine or form Al alloys. For instance, the AA-6xxx series contains a large amount of hard intermetallics that make forming it challenging.

1. Introduction. Solubility is the property of a solid, liquid, or gaseous chemical substance called solute to dissolve in a solid, liquid, or gaseous solvent to form a homogeneous solution of the solute in the solvent. The solubility of a substance fundamentally depends on the solvent used as well as on temperature and pressure.

engine can be found on the Rolls-Royce website: Journey through a jet engine. General Electrics also has a slightly more detailed yet fun demo.. Land-based gas turbines as used in the power generation industry are in principle very similar, but larger, and the actual turbine (the last rows of blades in the engine) is not connected ...

Coatings for Turbine Blades - University of Cambridge

Subaru's EJ251 and EJ252 were 2.5-litre horizontally-opposed (or 'boxer') four-cylinder petrol engines. For Australia, the EJ251 engine was first introduced in the Subaru BE/BH Liberty in 1998 and subsequently offered in the BH Outback, GD/GG Impreza RS and Subaru SG Forester. For the Subaru BL/BP Liberty and BP Outback, the EJ251 was replaced by the EJ252 engine.
