#### Metalworking Doing It Better

Orbital finishing sanders are lightweight and are ideal for doing precision sanding, such as touch-ups; these have a square sanding surface, are typically held with one hand and have a bag to catch debris located behind the sander; Random-orbit sanders have a round sanding surface but operate much like orbital finishing sanders

#### Tools - Walmart.com

It's simply a case where standards are met and doing the work any better would be a waste of time, effort and money. The type of craftsmen we honor here are the few who use the skills of the trades to produce a form of art. Their level of work rises beyond what is needed to complete the job with competence to a level of perfection that can be ...
