Ship modellers tend to work at scales of around 1/350th, aircraft modellers work at 1/76th or 1/48th depending on the type of aircraft, armour modellers hover around 1/35th scale and car modellers tend to use 1/12th scale. It is just common sense. Historical Reasons. The 1/35th scale Piranha and 1/72nd scale Warrior compared side by side again.

### Explaining Scale - Scale Model Guide

The Mooer GE200 is a great example, offering a selection of effects, models and tools that wouldn't look (or sound) out of place on a unit far higher up the effects food chain. The 70 included effects all sound great, and we particularly liked the ability to load your own impulse responses to fine-tune your speaker outputs.
