Well, we didn't see why companies should get all the fun. It's good to get a second opinion (even when you're as mad about cars as us). When we want to know anything about a new car, we talk to Parkers. They're the UK's most trusted site for new and used car reviews, don't you know. And they've got their head screwed on about personal car ...

Go for an electric-car tariff and you could recharge for as little as £3. However, it does cost a lot of money to buy, which is the same tale for all electric cars. Bought outright (and depending on which of the two trims you go for) the Honda E will cost you between £27,000 and £30,000, or about £300-£350 on a monthly finance deal ...

Terrain — a Smart car will sell better in urban settings, for example; Population — more people means more demand . Even things like the season can influence car value. That may seem surprising, but really, it's inevitable that a used convertible car will be more in demand in June than it would be in December.

A wheel clamp, also known as wheel boot, parking boot, or Denver boot, is a device that is designed to prevent motor vehicles from being moved. In its most common form, it consists of a clamp that surrounds a vehicle wheel, designed to prevent removal of both itself and the wheel. In the United States, the device became known as a "Denver boot" after the city of Denver, Colorado, which was the ...

Car finance companies often use specialist car valuers such as Cap HPI, Parkers and Glass's Guide to help predict what a car's future value will be, by looking at previous depreciation of similar car makes and models. Finally, the finance company can apply its own risk assessment on top, so balloon payments vary between finance providers.
