Download [PDF] Peer Play And The Autism Spectrum Free ...

Kids with autism play differently from other kids. Even at a very young age, autistic kids are more likely than their typical peers to line objects up, play by themselves, and repeat the same actions over and over again. They're also less likely to engage in games that require "make-believe," collaboration, or social communication. 1

Why Autistic Children Play Differently

Peer Play Interventions To Support the Social Competence of Children with Autism Spectrum Disorders Jo-AnnePrendeville,Ed.D.,1PatriciaA.Prelock,Ph.D.,CCC-SLP,2 andGregoryUnwin,M.S.,CFY3 ABSTRACT Children with autism spectrum disorders (ASD) have difficulty connecting with others because they often lack the communication, social
