Person-centred care | The Health Foundation

Put simply, being person-centred is about focusing care on the needs of the person rather than the needs of the service. Most people who need health care these days aren't happy just to sit back and let health care staff do what they think is best. They have their own views on what's best for them and their own priorities in life.

Nursing Care Plan - Personalised Care made simple.

Person-centred care is based on a holistic approach to health care that takes the whole person into account instead of a narrow perspective where the focus lies on the illness or the symptoms. The person-centred approach also includes the person's abilities, or resources, wishes, health and well-being as well as social and cultural factors.
