It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Prophet Of Decline Spengler On

Spengler predicted many of the horrible events and consequences of history, but most important he predicted "The Decline of the West" in his two vo Author Farrenkopf treats Spengler fairer than most, looking for all of Spengler's weaknesses and strengths thus concluding that if one really wants to know where the West is heading (a global apocalypse), one most read Spengler's pessimistic work.
