Navigate to the "Get just the command line tools" section of the android downloads page, and download the tools for your system.. For Windows: Extract the contents to C:\Android\android-sdk . Navigate to C:\Android\android-sdk\tools\bin and open a command line window

How do I download the Android SDK without downloading Android Studio?

This paper presents a multi-axis low-cost soft magnetic tactile sensor with a high force range for force feedback in robotic surgical systems. The proposed sensor is designed to fully decouple the output response for normal, shear and angular forces. The proposed sensor is fabricated using rapid prototyping techniques and utilizes Neodymium magnets embedded in an elastomer over Hall sensors ...
