As the name suggests, Open Library features a library with books from the Internet Archive and lists them in the open library. Being an open source project the library catalog is editable helping to create a web page for any book published till date. From here you can download books for free and even contribute or correct. The website gives you access to over 1 million free e-Books and the ability to search using subject, title and author.

Statistics 2023 Study Guide

Descriptive statistics uses known data to identify patterns or present simple numerical summaries in a convenient form. EXAMPLE: In a study examining the eating habits of SeaWorld's orcas, it was observed that the mean food intake was 38kg per day. This statement is an example of descriptive statistics - we are describing what we know.
