### Homepage | Science Fair Central

The foundation of this website is a collection of resources compiled by Dr. Richard Felder, Hoechst Celanese Professor Emeritus of Chemical Engineering at NC State University, at his popular website, Resources in Science and Engineering Education.

### STEM Education Resources - College of Engineering

There would be nothing to soften the effect of volcanoes or to put out fires. There would be no cushioning effect against earthquakes. Any rubbing of tectonic plates against each other would be magnified far beyond what it is now - the trembling would create massive rock slides and crumbling both at the site and in remote areas affected.

### Why Water Is Important to Life - Owlcation

A while back, I received an email from a reader who is going back to school for an engineering degree. He asked me to write a detailed post on why I gave up my engineering career. Engineering is a great field to get into. These STEM (Science, Technology, Engineering, and Math) careers pay well and the world demands more engineers every day.

### Why I Gave Up My Engineering Career - Retire by 40

Introduction. All matter is made of atoms. Atoms have a nucleus, which consists of protons and neutrons, and is surrounded by electrons. The nucleus is concentrated in a very small space, about 10-15 m. An entire atom is on the order of 10-10 m, so the electrons are relatively far from the nucleus, and, strangely enough, atoms are mostly empty space. ...

### Rainbow Fire | Science Project

Kids can steer the toy fire truck by tilting it left and right, sweep away the LEGO flames using its front plow and shoot water elements from the stud-shooter fire hose to knock out the fire This LEGO firefighter playset makes a great little gift for any occasion; It's perfect for boys and girls aged 5 and up and requires only basic building ...
