The Coming Plague Newly Emerging

First published in 1994 in hardcover by Farrar, Straus and Giroux, THE COMING PLAGUE: Newly Emerging Diseases in a World Out of Balance was a New York Times bestseller in 1994-5. Laurie Garrett researched and wrote THE COMING PLAGUE for ten years, starting in the mid-1980s when the very premise of the effort was highly controversial.

The Coming Plague — Laurie Garrett

The Coming Plague, written in 1995, is perhaps more timely than ever. It is a long book, but each chapter is a different outbreak the CDC handled or mishandled over the decades. since each chapter is a different outbreak, you can read them independently. So dont be overwhelmed bc its 800 pages, just means there's a lot of great shorter stories ...

The Coming Plague: Newly Emerging Diseases in a World Out ...

Relying on extensive interviews with leading experts in virology, molecular biology, disease ecology, and medicine, as well as field research in sub-Saharan Africa, Western Europe, Central America, and the United States, Laurie Garrett's The Coming Plague takes readers from the savannas of eastern Bolivia to the rain forests of the northern Democratic Republic of the Congo on a harrowing, fifty year journey through the history of our battles with microbes. This book is a work of ...
