“The problem with these policies is that they began to erode the foundations for a successful society,” Norberg said. Reversing Sweden’s traditions of small government and an open economy...

Socialism Didn’t Work In Sweden, And It Won’t Work In America

However, Marxist socialism, with most other versions of socialism, is not an appropriate alternative to the excesses of capitalism. Beginning with the commendable desire for material equality and communal ownership of property, socialism goes too far, extending communal ownership beyond its normative limits.

The Religious Problem with Socialism | BruceAshford.net

The economic calculation problem is a criticism of central economic planning which exists in some forms of socialism. It was first proposed in 1854 by the Prussian economist Hermann Heinrich Gossen. It was subsequently expounded in 1902 by the Dutch economist Nicolaas Pierson, in 1920 by Ludwig von Mises and later by Friedrich Hayek.
