The Strategy Of Indirect Approach

The Indirect approach is a military strategy described and chronicled by B. H. Liddell Hart after World War I. It was an attempt to find a solution to the problem of high casualty rates in conflict zones with high force to space ratios, such as the Western Front on which he served. The strategy calls for armies to advance along the line of least resistance.

Liddell Hart forcefully contends that for the indirect approach to be successful, indeed for any strategy in war to be viable, the political ends must be in line with the total military means available for achieving them (Liddell Hart 1967, 336). Should this condition be met, a real economy of forces might be realized (Liddell Hart 1967, 336).
