Social Problems - Chapter 1 - Thinking about Social ...

A social problem is any condition or behavior that has negative consequences for large numbers of people and that is generally recognized as a condition or behavior that needs to be addressed. This definition has both an objective component and a subjective component. The objective component is this: For any condition or behavior to be considered a social problem, it must have negative consequences for large numbers of people, as each chapter of this book discusses.

Social Thinking is a language and cognitive-based methodology that focuses on the dynamic and synergistic nature of social interpretation and social communication skills, both of which require social problem solving.

Social Thinking - Wikipedia

Here are some "thinking problems" that many of us share. Emotional reasoning. I think and act based on how I feel. Example: "I don't feel like doing this, so I won't". Solution: Many times if we act first (even when we don't "feel" like it), our feelings and thoughts begin to change for the better. Negative/vicious "cycle" thinking
