After nearly two years of disruption, the global fashion industry is once again finding its feet. Companies are adapting to new consumer priorities, and digital is providing a nexus for growth. Still, the industry faces significant challenges amid supply-chain disruption, patchy demand, and persistent pressure on the bottom line.

Still, it is a perilous time for Biden: The nation is gripped by another disruptive surge of virus cases and inflation is at a level not seen in a generation. Biden's approval rating has fallen sharply over his first year in office and Democrats are bracing for a potential midterm rout if he can't turn things around.
